Individuals convicted of one or more of the following offenses are designated as sexual offenders and are required to register with Montana's Sexual and Violent Offender Registration Unit.

Reasonably equivalent offenses of another state or the federal government also qualify.

Violent Offenses

In 1995, the Montana Legislature required certain violent offenders to register in Montana in addition to sexual offenders. Montana is one of the few states that register violent offenders.

- **Aggravated Assault** – MCA 45-5-202
- **Arson** – MCA 45-6-103
- **Assault on Minor** – MCA 45-5-212
- **Assault on Peace Officer or Judicial Officer** – MCA 45-5-210(1)(b), (1)(c) or (1)(d)
- **Assault with Weapon** – MCA 45-5-213
- **Deliberate Homicide** – MCA 45-5-102
- **Mitigated Deliberate Homicide** – MCA 45-5-103
- **Operation of Unlawful Clandestine Laboratory** – MCA 45-9-132
- **Partner or Family Member Assault**, third or subsequent conviction – MCA 45-5-206
- **Robbery** – MCA 45-5-401

Reasonably equivalent offenses of another state or the federal government also qualify.

Sexual and Violent Offenders

Offenders who have been convicted of both a qualifying sexual offense and a qualifying violent offense are listed on the Registry as sexual and violent offenders.

Additional Designations

In addition to sexual offenders and violent offenders, the Registry also refers to:

- **Sexually Violent Predators** – offenders who have been convicted of a sexual offense and who suffer from a condition that makes them likely to engage in

predatory sexual offenses, MCA 46-23-502(8); highlighted on the Search Results page in red.

- **Transients** – offenders who cannot provide a permanent address
- **Non-Compliant Registrants** – offenders who have failed to keep their registration current as required by Montana law. Information on these registrants is provided as allowed under MCA 44-5-103(13)(f).

Local law enforcement and the Sexual and Violent Offender Registration Unit make a constant effort to locate non-compliant registrants. Please contact your local law enforcement agency with any information you may have on such an offender's whereabouts.

Tier Levels

Tier levels are a method of assessment to predict the likelihood that a sexual offender will re-offend. Tier levels also assess the threat that an offender poses to public safety.

Limitations of Predicting Risk

There is no known way to accurately predict the future behavior of another person. The process of screening individuals in prison places them into risk categories. This does not mean that the Department of Corrections has devised a way to predict future behavior. Rather, it means that a scientific way exists to evaluate an offender's past behavior by comparing it with other individuals who have been out of prison for a while. This shows how an offender might act once released from prison.

Not all offenders with a high score on the risk test will commit another crime. However, they are more likely to commit another crime than an offender with a low score.

Montana's Three-Tier System

The Department of Corrections or the sentencing court designates a tier level that assesses the risk each offender poses for committing similar offenses in the future:

- **Level 1 Sexual Offenders** – the risk of a repeat sexual offense is low
- **Level 2 Sexual Offenders** – the risk of a repeat sexual offense is moderate
- **Level 3 Sexual Offenders** – the risk of a repeat sexual offense is high, there is a threat to public safety, and an evaluator believes the offender is a sexually violent predator

If an offender was convicted in federal court or in another state and the offense requires registration in Montana, the Registration Unit may use the risk level designation assigned by that state or the federal government.

Offenders without a tier level – Some sexual offenders may not have a tier-level designation. Since the tier-level system was not enacted in Montana until 1997, sexual offenders sentenced prior to that year may not have a tier level. Sexual offenders may not have a tier level designation if:

- they were incarcerated prior to 1997
- they were not incarcerated after 1997
- the sentencing judge did not assign them a tier level

Violent offenders are not issued tier levels.
